Awards

Winner - UI/UX Design Competition (Intercollege Level)

- Designed and developed an engaging Kids Playzone Website with a focus on vibrant visuals and intuitive navigation.
- Created a user-friendly interface ensuring a fun and safe digital space for children.
- Integrated creative design elements and interactive features to enhance user experience.
- Applied strong skills in wireframing, prototyping, and various design tools throughout the project.

Projects

social media dashboard [↗](#)

- Designed and developed a **responsive social media dashboard** using **React.js** with a clean and modern UI.
- Integrated **RapidAPI** to fetch real-time data and demonstrate external API communication.
- Structured code using reusable components for **scalability and maintainability**.
- Implemented **responsive layout** using CSS Flexbox and Grid for cross-device compatibility.

Skincare Product Website [↗](#)

- Collaborated with a **small skincare startup** to design and build a **visually appealing, responsive UI** using **REACT and TAILWIND CSS**.
- Focused on clean layout, product presentation, and smooth user experience across mobile and desktop.
- Delivered a fully functional, **static marketing site** optimized for performance and accessibility.
- Ensured **brand consistency** by aligning fonts, colors, and visual elements with the startup's identity.

Organisations

ITC

Activity leader

- Served as an Activity leader in the Marketing Team at ITC Company, where responsibilities included:
- Managing and coordinating staff to ensure smooth execution of marketing activities.
- Engaging with customers to promote product awareness and encourage involvement.
- Organizing interactive sessions and events to boost customer interest in ITC products.
- Ensuring efficient communication between the team and customers to enhance brand engagement.
- This role improved my leadership, communication, and organizational skills.
